

 RELEASE NOTES

Panopticon

Version 2025.1

New Features

Data Connectivity

Feature ID	Description
DDTV-23443	New AI Cloud Data Catalog connector.
DDTV-24015	New Text Entry connector.
DDTV-24151	Web Data connector - Support for new columns to be generated automatically when Header Rows setting is changed.

Data Framework

Feature ID	Description
DDTV-21225	External Aggregates - Allow setting Column to "All" to consider all values as aggregates.
DDTV-23895	Support for redaction of encrypted parameters in logs.
DDTV-24028	Pivot Transform – Value quoting support to allow values with comma or leading/trailing space.
DDTV-24339	Support for parameterization of the visualization Help text.

Server Improvements

Feature ID	Description
DDTV-12679	Improved performance of the Admin UI Subscriptions page.
DDTV-24477	Support for users to reach personal or explicitly permissioned folders when not having READ access on the root folder.
DDTV-24169	New plugin discovery and load mechanism.
DDTV-24076	Improved caching of static server content.
DDTV-24691	New server property to control External Aggregate behavior.

Admin UI

Feature ID	Description
DDTV-23979	Alert Events tab - Improved filtering on Trigger Time column.
DDTV-24138	Alerts – Improved and redesigned layout of the Alert Editor.
DDTV-22563	Data Library - Include broken Data Tables in listing, to allow deletion.

Panopticon Streams

Feature ID	Description
DDTV-24103	Improvement to auto-restart running Streams application upon Streams restart.
DDTV-24104	Improvement to auto-restart Streams application upon Schema Registry or Broker restart.

Reporting

Feature ID	Description
DDTV-23184	Ability to toggle off default Timestamps on output name in scheduled email CSV.
DDTV-24308	Excel Export – Resolution improvement to produce images similar to PDF report output.

Visualization

Feature ID	Description
DDTV-18275	New generation Label/Tile visualization.
DDTV-21966	Size Variable with Fixed Range - Change UI to clearly show that Min is readonly.

Web Designer/UX

Feature ID	Description
DDTV-23098	UI Improvement to show Data Table logs consolidated in a single text area.

Integration

Feature ID	Description
DDTV-24409	Ability to open a workbook in Edit mode instead of View mode.

Data Management

Feature ID	Description
DDTV-24287	File drag-drop upload disabled when client.filepath.upload.disabled is set to true.

Analytics

Feature ID	Description
DDTV-24288	Ability to set parameters from actions in X- or Y-axis Graph series visualizations.

Deprecated Features

Feature ID	Description
DDTV-24155	Custom compression subscription.compression.enabled property

Fixed Issues

Issue ID	Description
DDTV-24467	Preview data can use server-side parameters from any folder
DDTV-24341	Export workbook with linked table and import (or copy) to different folder on same server breaks calculated column reference
DDTV-24587	JDBC Connector - Join settings to be disabled when not in query mode
DDTV-24540	Failure to export Workbook table to Data Library
DDTV-24471	JDBC Connector - Query Builder Join failing when there are duplicate column names and explicit column selection
DDTV-24493	Unable to rollup hierarchy when in Table Display Mode
DDTV-24419	Align to time window doesn't work as expected for X-axis graphs
DDTV-23389	SEVERE: [WebSocketProcessor] The provided request id is lower than the current request id error
DDTV-24309	Python - No Data Log button error with FastAPI
DDTV-24418	Action Text Box with Input Type Numeric Multiple does not accept decimal input when used with Form
DDTV-24295	Panopticon Streams in Designer mode draws 2 units
DDTV-19468	Global encrypted param values displayed in browser log
DDTV-24384	Edit Data Table button in workbook is disabled when user lacks Write permission on the Organization root folder
DDTV-24265	Disable file upload doesn't block dropping of a file
DDTV-24584	SQL preview query shows incorrect results for joined data table when Query on Demand is enabled
DDTV-24556	Calculated columns created with Join Key usage are shown in the transform schema
DDTV-24448	Unexpected files in repository breaks some maintenance commands
DDTV-24229	Alerts - Triggered value is missing for triggered items in webhooks
DDTV-24293	Cloud Admin - UI doesn't update the resource sizing, when changed from custom to others

DDTV-24292	Cloud Admin - The default sizing is displayed as custom when it should be xsmall
DDTV-23074	Special code for GetJavaScriptConfigService only works for basic authentication
DDTV-24386	JavaScript error when right clicking empty area after making selection
DDTV-24670	External Aggregate return n/a when having text column to the right of partition column, not used in breakdown
